

WE SUPPORT ARIEL

The **Religious Freedom Coalition** is a social conservative Christian organization with offices just blocks from the Capitol Building in Washington, DC. For more than twenty years its chairman, William J. Murray, has been a strong supporter of Israel's right to exist as a Jewish nation.

The **Religious Freedom Coalition** has produced numerous White Papers and video documentaries highlighting the terror against Israel and against Palestinian Christians by organizations such as Fatah and Hamas.

The **Religious Freedom Coalition** supports Christian schools in the Bethlehem/Beit Jala area at which biblical kindness and tolerance are taught instead of the hatred which is propagated in the Palestinian Authority run schools. The RFC supports the distribution of Bibles and other Christian materials to Palestinians in the villages surrounding Ariel as well as in the Bethlehem area.

The **Religious Freedom Coalition** has become a strong voice against the rising tide of anti-Semitism in the EU, and particularly in France. The Religious Freedom Coalition participates in numerous international events, including the annual Interparliamentary Conference on Human Rights and Religious Freedom, to promote true religious freedom in all nations, including those in the Middle East.

The **Religious Freedom Coalition** has arranged pro-Ariel conferences in Washington, D.C. In 2005, arrangements were made for Mayor Ron Nachman to speak at various events on Capitol Hill. We at the Religious Freedom Coalition look forward to our continuing cooperation with and support of the people in Ariel.
